Professional Summary:

Java Full Stack Developer with internship experience building and shipping REST APIs, relational data models, and React-based interfaces for live production features. Validated 20+ API endpoints pre-deployment as part of a cross-functional engineering team, and independently designed two full-stack applications end-to-end — schema design through deployed UI. Strong foundation in OOP, data structures, and Java 8, with a consistent focus on clean, maintainable code.

Technical Skills:

Languages: Java, JavaScript (ES6+), SQL
Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, RESTful API Design
Frontend: React.js, HTML5, CSS3, Responsive Web Design
Databases: PostgreSQL, MySQL — schema design, indexing, query optimization
Tools: Git, GitHub, Maven, Postman, VS Code
Core Concepts: OOP, Collections, Generics, Exception Handling, Multithreading, Streams, Lambdas
Practices: SOLID Principles, Agile/Scrum, CI/CD Fundamentals, API Documentation

Experience:

Software Developer Intern
Inbatoz Consultancy Pvt. Ltd. | Pune, Maharashtra
Apr 2026 – Present

- ✓ Engineered and integrated RESTful APIs using Java and Spring Boot for 3 live production features, streamlining frontend-backend data flow and cutting average response latency.
- ✓ Tested and validated 20+ API endpoints in Postman before every release, reducing post-release bugs across two release cycles.
- ✓ Partnered with a 6-member cross-functional team to debug backend performance bottlenecks, improving response time on a core transaction module.
- ✓ Owned CI/CD deployment steps for 4 production releases, gaining full-lifecycle exposure from commit to deployment.
- ✓ Authored API documentation for 15+ endpoints, improving handoff clarity and cutting ramp-up time for 5 incoming team members.

Projects:

❖ **File Share | Full Stack Java Application [View]**
• Architected and independently built a full-stack file management platform supporting secure upload, storage, deletion, and shareable-link access, load-tested across 50+ files and 10 simulated users.
• Designed and implemented 12 REST endpoints in Spring Boot covering full CRUD file operations, integrated with a React.js frontend.
• Modeled relational schemas in PostgreSQL using Hibernate/JPA, preserving data integrity across 500+ records while keeping average query time under 50ms.
• Wrote and executed 30+ Postman test cases across the API surface, holding average end-to-end response time under 200ms.
• Tech Stack: Java, Spring Boot, REST APIs, Hibernate/JPA, React.js, PostgreSQL, Maven.

❖ **Personal Portfolio | Frontend Web Application** [View]
Personal portfolio to showcase profile, skills, and projects. Optimized for mobile and tablet responsiveness.

- Optimized for mobile and tablet responsiveness
- Technologies used : HTML, CSS , JavaScript.

Education:

B.Tech – Computer Science & Engineering | M.S. Bidve Engineering College, Latur | CGPA: 6.7/10 | 2026
HSC (Science, PCM) | Dayanand Science College, Latur | 66.33% | 2022
SSC | Shree Deshikendra Vidyalaya, Latur | 81% | 2020
